

Further testimony was given that the garment
shown in the file is of some kind and the
purpose of it is to be used as a
mask.

THE YETI, A MOUNTAIN MONSTER
The Yeti, a mountain monster, has been reported in the Himalayas of China and India. It is a large, shaggy creature, about 6 feet high, with a long, shaggy coat of hair. It is said to be a man-eater and to live in the mountains. The Yeti is a very interesting creature and has been the subject of many legends and stories. It is a very mysterious creature and its existence is still a matter of debate. Some people believe that it is a real creature, while others believe that it is a myth. The Yeti is a very interesting creature and has been the subject of many legends and stories. It is a very mysterious creature and its existence is still a matter of debate.
